

GULF COUNTY RESTORE ACT PROJECT PRE-PROPOSAL FORM

Project Name: George Core Park Electrical & Water Improvement Project

Submitting Entity: Gulf County Chamber of Commerce

I. Please select one or more eligible activity that the project is classified under:

Restoration and protection of the natural resources, ecosystems, fisheries, marine and wildlife habitats, beaches, and coastal wetlands of the Gulf Coast region.

Mitigation of damage to fish, wildlife and natural resources.

Implementation of a federally approved marine, coastal or comprehensive conservation management plan, including fisheries monitoring.

Workforce development and job creation.

Improvements to or on State parks located in coastal areas affected by the Deepwater Horizon oil spill.

X Infrastructure projects benefitting the economy or ecological resources, including port infrastructure.

Coastal flood protection and related infrastructure.

X Planning assistance.

X Promotion of tourism and seafood in the Gulf Coast region.

II. Please provide an executive summary of the project. Describe/quantify the economic (jobs, infrastructure, tourism, etc.) and environmental benefits (habitat, quality, knowledge, long-term sustainability, etc.).

It is the objective of the Gulf County Chamber of Commerce to promote our area as destination where visitors and local alike can enjoy the many unique and beautiful aspects of our natural landscape while supporting local businesses. It is through marketing special events that we enlarge the attention to our area to increase the local economy. George Core Park is the focal point for festival activity in the Port St. Joe area and any capitol improvements that can be accomplished will greatly enhance the venue for current and future usage. Extension of the current water and electrical service are a key factor in the future use of this park and event growth.

III. Please provide a cost summary/budget. Detail any matching/cooperative funds available for use, and any cooperative support from governmental or other agencies.

In order to meet the need for the increasing users of George Park this is an estimate of electrical and water systems extensions.

Design and Feasibility Study:	\$50,000
Electrical Improvements: (based on 100 temporary vendors sites)	\$100,000
Water Improvements: (based on 50 temporary vendor sites)	\$100,000
Permits:	\$ 5,000
TOTAL:	\$255,000

IV. Please provide a timeline for project completion. Explain the technical and environmental feasibility (including any permitting considerations) of the project.

This project can begin the design/study phase immediately and is expected to last approximately 3 months on order to obtain necessary input by local officials and a stakeholder group of park users. From permitting, it is anticipated that the build out of this project take approximately 2 months. This estimated time line would allow the improvement to be in place prior to our 2014 festival season.

V. Please provide the qualifications of the Submitting Entity, the financial feasibility/sustainability and the economic feasibility and sustainability of the project (probability of success, etc.).

The Gulf County Chamber of Commerce is a 501 (c) (6) that exist exclusively as an economic driver for our local business community. Our organization is in its 77th year of operation and is funded through membership dues, city and county funding, and corporation sponsorships. The results of the increased park festivals will be measurable through the event revenue directly and indirectly through bed tax collections and local business revenue.

VI. Please provide the anticipated results of the project, and whether it is included in a City of Port St. Joe, City of Wewahitchka or Gulf County Comprehensive and Mitigation Plan?

The results of the improved electrical and water systems throughout George Core Park will be reflected in increased number of events. This generates attendees and ultimately increased revenue for local business. This project aligns with both The City of Port St. Joe and Gulf County plans as events promotions feeds directly into Tourism Marketing and can be measured though bed tax collections and local business revenues.
